Lara, you are quite right that in the long run it doesn't matter which side gets the geopolitical upper hand if there is no values shift and the world as a whole refuses to consume less. I shouldn't have accused you of trying to change the subject. The purpose of Us/western destabilisation of Iraq, Ukraine etc is control over oil supply so that we in the west can survive peak oil for a little bit longer. As you pointed out, a similar thing could be said of Russia's war in Chechnya. As regards to changing ones lifestyle, I haven't really given it much thought yet. I think hedging against catastrophic outcomes is always better than not and I vaguely intend to do so at some point. In my personal opinion however, going all out to build transition/resilience communities is probably futile in the long run. For them to have any long term chance of success either you will have to settle in very isolated places at the end of nowhere, or you will have to deal with local warlords, (who will arise as government breaks down) climate refugees and refugees from cities etc who will inevitably besiege those communities. The most resilient communities will have to be extremely highly militarised and led by strong men. Anyway I see you've de friended me again. I'd prefer that you didn't but if you want to that's fine.

You made the decision to act in a manner that violated our agreement; I just enabled you to walk your violation of agreement. You appear to have forgotten previous correspondence:

If you are interested in bullshit verbal diarrhea; thanks but no thanks.

If you are capable of making a sincere commitment to honourable dialogue, where you address facts and evidence, and provide constructive evidentiary feedback; no problem.

I have better things to do, than engage in verbal diarrhea with people incapable of active listening or honourable dialogue.

The decision is up to you.

I stuck to the agreement, and only engaged you sincerely and honourably. You think I am a fucking joke, worthy of being a laughingstock. Not a problem. You think someone who responds to you sincerely and honourably is a fucking joke. Okay... no big deal. Go and spend your time conversing with people who treat you insincerely and dishonourably, if that is what you want.

In a battle between two sides of physically strong persons; the persons with emotional, intellectual and philosophical strength will kick the others ass. Militancy means fuck all if you lack the courage to confront harsh reality. Mother nature can kick all the worlds armies combined, without even getting out of bed. Harsh Reality!

You are right that "laughingstock" was a flippant choice of word. When I wrote it I did not mean laughingstock as in literally laughable. All I meant was "so long as your suggestions remain unheeded ..."  
I wrote my reply quite late, when I was tired around 2am. Often when I write something very late at

night, I'll read over it in the morning and it sounds silly even cringeworthy. (Which is why I've waited till morning to reply) So I apologise for the insincere remark. I will try to be more conscious of using only straightforward honest language eg. "I Agree/disagree" in discussions and more generally. No silly offhand words like laughingstock. I would like to re-add you again but if you do not wish to communicate with me any further that's fine.

**From: Lara Zhivago**

Not clear that I understand you. If you check my 'about' page, you will see under quotes, that in my worldview perspective, i do not think it is possible to really factually 'agree/disagree' with anyone if you are not sincerely listening, and verifying your interpretations as accurate.

Clarify what you mean by "so long as your suggestions remain unheeded ..."

In your opinion and interpretation of my message: (a) what are my suggestions; and (b) whom exactly has 'unheeded' my message; and (c) what would 'heeding' my message look like to you?

I have no problem communicating with anyone who really wants to engage in active listening to make sure they are being accurately interpreted; because that is my preferential communication policy.

Since you value active listening and there is a lot of material on your website I would like to take the time to read it over again to make sure I have understood it accurately and so to answer your questions properly. It's rather late at the moment and I have two important exams to prepare for on Wednesday so I might not get back to you till later in the week.

Hi Lara, sorry for taking so long to get back to you. I have been trying to actively read your websites/blogs over the past few evenings when I've had time and I can see your argument is a bit different to what I'd assumed. I hope I am getting nearer the truth. To answer your questions

A. Your suggestion is that poverty, war, environmental degradation can only be solved by discarding outdated anthropocentric jurisprudence/social contract theory that ignores the relationship between humans and nature. This has led to unchecked procreation/consumption which is the main sower of discord and which will end in global collapse. Your proposed solution is a new ecologically literate contract that 1. would legally define the difference between Sustainable and unsustainable behaviour, 2. the rewards for compliance and the the penalties for violation. This would have to be enforced on both a national and international level. Hence you have been petitioning courts both in South Africa, America, EU, UN in order to get them to realise the necessity of a new contract. You are also arguing that in so far

as the courts continue follow anthropocentric jurisprudence they have no right to judge the innocence/guilt of people like Bradley Manning, Snowden, Brevik.

B. As far as I gathered the courts have not paid attention to your applications. You say you also informed the media of some of your applications but they have not been reported.

C. Citizens would no longer have the inalienable right to consume and reproduce. Those whose lifestyle was deemed unsustainable would not be permitted to vote and would face other legal penalties. You say that if someone decides to have a child they would have to reduce their ecological footprint to 1gha.? I take it this would essentially be a zero child policy since most people in the West would not be willing to reduce their consumption by such a dramatic amount in order to have a child.

Is this an accurate interpretation?

I have been trying to actively read your websites/blogs over the past few evenings when I've had time and I can see your argument is a bit different to what I'd assumed. I hope I am getting nearer the truth. To answer your questions.

Thanks for your efforts to understand accurately.

Please note: if you are referring to MILINT Earth Day submission to Swiss Federal Council, and various other courts; my efforts with specific regard to the submission to the Swiss Federal Council is in the capacity of clerk on behalf of other parties who are the primary parties.

A. Your suggestion is that poverty, war, environmental degradation can only be solved by discarding outdated anthropocentric jurisprudence/social contract theory that ignores the relationship between humans and nature.

Slightly altered. My suggestion is that: If or when anyone calls themselves anti-poverty; anti-racism, anti-war, anti-imperialism, and consider those issues to be socio-political 'problems'; then the first rule of problem solving is to (a) accurately define the problem, by finding the root cause of the problem.

It is my working hypothesis conclusion, that a majority of people who whine endlessly about poverty, racism, bigotry, imperialism, war, etc; etc; are not (a) problem solving orientated: not sincerely concerned about solving the problems they spend endless verbal diarrhea whining about; but are in fact (b) parasite (perpetuate the problem) motivated: focussed on perpetuating the problems they whine about, for personal and socio-economic parasitical motives [to gain themselves a fanclub on the particular issue, while pretending to be concerned about solving it, by endlessly addressing the symptoms of the problems, because they do not want to solve the problem (which would dry up their fanbase)]

So to conclude: yes, to anyone who is sincere and serious a significant number of the socio-political problems experienced in industrial society; are a result of among others anthropocentric flat earth ecological illiterate jurisprudence / social contracts.

**This has led to unchecked procreation/consumption which is the main sower of discord and which will end in global collapse.**

What we have experienced has not been 'unchecked' procreation/consumption; but directly encouraged 'go forth and multiply' and 'right to breed and consume'; with deliberate intentional population and consumption growth practices; for Masonic breeding and consumption growth purposes. Furthermore much of (not all) the discord is a result of specific 'divide and conquer' practices by Masonic elite, more specifically, Masonic societies management of the 'seething powers of lucifer'.

Brief Summary: All civilized religions — from Christianity, to Gnosticism, etc — were 'created' in the minds of man to comprehend the concept of 'evil' (aka organized violence), subsequent to man's invention of agriculture, approximately 10,000 years ago; and where such agriculture created food surpluses, resulting in population surpluses, and expansion of their territory resulting in clashes with other tribes territories, resource war conflict.

They were a consequence of psychic existential conflict to attempt to understand so-called 'evil'; or put more simply: the conflict resulting from population pressures and escalating relations with fellow humans based upon the absence of consent, i.e. extended periods of psychic and physical violence and coercion.

Evil is defined as profoundly immoral and wicked, with synonyms: bad, wrong, morally wrong, wrongful, immoral, sinful, ungodly, unholy, foul, vile, base, ignoble, dishonourable, corrupt, iniquitous, depraved, degenerate, villainous, nefarious, sinister, vicious, malicious, malevolent, demonic, devilish, diabolic, diabolical, fiendish, dark, black-hearted.

A more simplistic subjective definition of evil I would say is: *evil is that which someone capable of reason and logic does to me without my fully informed consent.*

If there are two or ten people living on an island with enough food and other resources and space, for one hundred people; there is no need to coerce another for food or resources freely and abundantly available. If someone is irritating, there is plenty of free space, with plenty food and resources for building your own shelter, that you do not have to put up with their irritation.

In the absence of a resource scarcity conflict mindset, and plenty of space, tribal relations are more conducive to cooperation and sharing. When there is space, and sufficient resources, nobody is stealing or using your stuff. There are no other tribes to worry about coming to attack you, steal your resources, kill your family and enslave you, by means of organized violence (evil) for your resources. There is no need for an external God in the sky to explain 'evil' (organized

violence); there is only a consciousness to appreciate the source of resource abundance, as the 'source of life'; and to live in harmony with such source: nature. Violence is limited to hunting, or being hunted by a natural predator, for immediate food; which is a natural process and sacrifice by all members of the food chain, from top to bottom; who live in accordance to the law of limited competition (only consuming as much as necessary for their subsistence survival).

When your tribe, or another tribe on your island introduces agriculture, which results in an agricultural surplus and uses such agricultural surplus to justify greater population; then as their population increases, their internal population pressures increase, meaning they need more territory, which they then convert to agricultural processes, to grow more surplus, again growing their population and so on; until their territorial expansion arrives on your tribes territorial borders; and now you are forced to defend your tribal territorial resources from their food-population-consumption expansion (territorial agriculture). They now own all the territory on the island, so there is no space to run away from them or other people who are angry and irritated and take out their anger and irritation on those around them.

The existence of 'evil' (organized violence resulting from absence of fully informed consenting agreements) is plausibly directly proportional to the resource war conflict, resulting from the tribe's violation of carrying capacity limits; and/or coming into contact with another tribe's territorial expansion as a result of their violation of carrying capacity limits.

In the absence of organized violence resource wars (evil); there is only living in the garden of eden paradise, with your little family or other tribe. It is only once organized violence resource wars (evil) occur, that there is any need for man to create the duality of 'the tree of knowledge of 'good' and 'evil'".

The invention of agriculture and agricultural surpluses, and subsequent organized violence of civilization are the story of Adam and Eve's loss of living in carrying capacity harmony with the natural world resource abundant paradise, and Cain's choice to be a farmer.

Symbolically, perhaps the Tower of Babel plausibly represents the attempt to reach out and escape the evil of totalitarian agriculture organized violence, to a 'God' in the heaven, to ask 'why do you allow this 'evil' to occur'?

Others saw opportunities for socio-political status benefits from exploiting the reality of organized violence (evil). At such time it would have been impossible to implement enforceable worldwide legislation requiring all tribes to procreate below carrying capacity limits; and in accordance to Tragedy of the Commons principles, if only one tribe refused to breed in accordance to their territorial limits, it was simply a matter of time, before your tribes would be engaged in economic, political or military warfare for depleting resources. So, with that reality, the best option was to manage the problem, by engaging in breeding and consumption war practices, and then socio-politically and financially profiting from the culling and conquering.

Naturally, these methods of profiting from this state of affairs were best kept secret, and hence they were buried (amongst other issues) in the soc-called 'mysteries', or mystery religions, and so on.

My interpretation of the Manly Palmer Hall quote in *Illustrious: the Lost Keys of Freemasonry*, the 'seething energies of lucifer' are the psychological warfare art of manipulating and coercing men and women to overbreed and overconsume, to thereby aggravate resource war conflict, and the ability to divide and conquer people's, for the profit of the military or political (and later economic) 'warrior', to 'step onward and upward'; as he 'proves his ability' to apply this breeding war and consumption war energies, for his socio-political or financial benefits.

"When The Mason learns that the Key to the warrior on the block is the proper application of the dynamo of living power, he has learned the Mystery of his Craft. The seething energies of

Lucifer are in his hands and before he may step onward and upward, he must prove his ability to properly apply this energy.” page 48

Put differently, the ‘seething energies of lucifer’ are no less than the phallic justification for profiting from aggravating and perpetuating deliberate organized violence, without the consent of the recipients of the violence; because those engaged in this Lucifer energy mystery religion stuff; believe (perhaps correctly, I don’t know) that the majority of the lumpenproletariat would not support the implementation of a social contract founded on carrying capacity limitations, that abolished the elite; if the proles were required to practice responsible procreation and consumption.

Conclusion: Those sincerely interested in solving the socio-political problems of Secret Society management of the seething energies of lucifer which manifest as ‘white supremacy’, ‘racism’, ‘sexism’, etc; must address the root causes of the problem: ecological and egological illiteracy.

Put simply: if your christian, islamic, pagan, atheist or whatever church, or white, black, green, pink or whatever activist or cultural group you belong to; does not teach ecological literacy (aka the implementation of national and international law which limits breeding and consuming to below carrying capacity limits for everyone) it is unequivocally endorsing — consciously or unconsciously — the ‘seething energies of lucifer’ Masonic Babylonian Occult Human Factory Farm aka 666 Beast World Order.

Your

Again: I am simply the ‘clerk’ or sort of legal spokesperson for this proposed solution.

proposed solution is a new ecologically literate contract that 1. would legally define the difference between Sustainable and unsustainable behaviour,

Agreed

2. the rewards for compliance and the the penalties for violation. This would have to be enforced on both a national and international level.

Yes.

Hence you have been petitioning courts both in South Africa, America, EU, UN in order to get them to realise the necessity of a new contract.

Again: I am simply the ‘clerk’ or sort of legal spokesperson for this proposed solution, including many of the related submissions to various courts in South Africa, America, EU, UN, etc.

You are also arguing that in so far as the courts continue follow anthropocentric jurisprudence they have no right to judge the innocence/guilt of people like Bradley Manning, Snowden, Brievik.

Sort of accurate in a general vague way; but it would be best to deal with each case specifically based upon the circumstances, to delineate each argument of moral adjudication of guilt/innocence.

B. As far as I gathered the courts have not paid attention to your applications.

How do you define ‘paid attention’?

You say you also informed the media of some of your applications but they have not been reported.

Yes I did inform the media; but not for the purposes of getting the information to be reported; only for the purposes of transparent information sharing. I don't consider any media publication that does not practice scientific journalism, to be helpful in sharing a socio-cultural message, that is alien to the readers of such article. What is the point of two million people reading a news article, with no access to original source documents to provide any readers with further information; and hence 2 million read the article, and not one understood it? Would you rather have 5 million people read an article about your project who don't understand it; or five Generals; who really read the article, did understand it, and are motivated to doing something about it?

C. Citizens would no longer have the inalienable right to consume and reproduce.

Agreed. They would only have the inalienable right to consume and procreate upto carrying capacity limits, and no further.

Those whose lifestyle was deemed unsustainable would not be permitted to vote and would face other legal penalties.

This voting idea is – as far as I understand the issue – a suggestion; that is not quite finalized. It may work for some tribes and countries and not others. It would depend on how the CommonSism jurisprudence is implemented. In short, as long as each tribe or nation commits to implementing the legislation to procreate and consume below carrying capacity limits; how they socio-culturally implement that process to occur within their nation; is upto them. Different cultures and nations may implement the procedures in accordance to their socio-cultural values. As long as all nations reduce their populations and consumption to carrying capacity limits, and clarify how they are going to do so, so that other nations are aware of their respective processes (to verify that they are keeping their word); then they can choose whatever process suits them best.

You say that if someone decides to have a child they would have to reduce their ecological footprint to 1gha.?

That is while world population is at a level of 7 billion. At a population of 3.5 billion, it is 2 gha, and at a population of 1 billion, it is 7 gha.

I take it this would essentially be a zero child policy since most people in the West would not be willing to reduce their consumption by such a dramatic amount in order to have a child.

I would agree that you are probably correct when you say 'most'.

However, if I had been able to be with my honey, when I was closer to child bearing age; I would have been quite happy to live in an off grid little home, grow our own vegetables, and chickens, that qualify as being below or close to 1 gha. Check these people out who are [way below 1gha](#). For example, my current footprint is 12 gha. The stuff that sends your gha through the roof is (a) techno-energy (electricity use); (b) transportation (car, etc); and (c) consumption of industrial civilization products.

Is this an accurate interpretation?

Yip, I would say that is generally accurate (with aforementioned amendments and clarifications). Hope they clarify.

Lara

Mr. Angus Buchan  
c/o Ms. Ronel Bauer

Specific answer to Mr. Buchan:

The email notified Mr. Buchan (and other supporters and objectors) of updates, supporter & objector filing deadlines and date of intended referral to Swiss Federal Commission.

The email requested from Mr. Angus Buchan (and all supporters) to clarify his **voluntary nonviolent 'walk his EoP talk' supporter status**: i.e. how serious and sincere is Mr. Buchan about implementing an effective voluntary non-violent Ecology of Peace New World Order:  
**Unconditional co-operator**: Individuals who has signed the Ecology of Peace Oath (DOC), currently living in accordance to Ecology of Peace social contract principles.  
**Conditional co-operator**: Individuals who have signed the Ecology of Peace Conditional Co-operator Statement of Intent (DOC).

Put differently I am asking Mr. Buchan (and other supporters): What New World Order do you prefer:

- An Ecology of Peace -- where all nations citizens are required to restrict their breeding and consumption to ecological carrying capacity limits, to orderly and humanely reduce the worlds population and consumption to carrying capacity limits – New World Order.

- A -- [RaHoWa](#) / [Kill Whitey](#) / [Eschaton](#) / [Final Solution](#) – Armageddon where White Power / Black Power / Christian Power / Catholic Power / Islam Power fanatics fight over the worlds depleting resources to totally eliminate their respective ‘ni\*\*ers / spicks / crackers / joos / liberal’ enemies from the face of the earth; and establish their White Power / Black Power / Christian Power / Catholic Power / Islam Power New World Order.

I am notifying Mr. Buchan (and all other supporters) that in the absence of Ecology of Peace supporters upgrading their supporter status to unconditional or conditional status; the primary EoP applicants (Presidents Obama and Putin, and other GMC 4643 applicants or supporters) may consider it necessary to either (i) legislate Ecology of Peace social contract international law into international law in secret and then inform the worlds citizens that it is ‘international law’ once so done; and their reasons for engaging in secrecy; or (ii) engage in coercive economic, political or military force for the campaign to succeed transparently; or (c) abandon the campaign.

\*\*\*\*\*

Long more detailed answer to Mr. Buchan and other EoP PoW supporters:

The email sent to you is being sent to all individuals who signed up as supporters for the **EoP PoW Amendments of Geneva Convention (EoP PoW)**.

It is to inform all of the supporters of the information in the email; and enable supporters to clarify their sincerity and seriousness of support for the implementation of an international Ecology of Peace social contract.

Simply it asks supporters to provide the following answer: **what is your ‘walk your talk’ level of sincerity and seriousness of your support commitment to the campaign?**

-----  
As detailed at [MILINT Earth Day Sign Up](#):

**EoP PoW Amendments of Geneva Convention to be referred to Swiss Federal Council on 11 September 2014**

Please Note:

A decision was made by the Clerk and Applicants on 19 April 2014, that the Ecology of Peace (EoP) Prisoner of War (PoW) Geneva Convention amendments submission (hereinafter referred to as “EoP PoW”) is to be referred to the Swiss Federal Council on 11 September 2014.

Supporters who want to keep updated about the finalization of the EoP PoW can find (a) updates at the [MILINT Earth Day Sign Up](#) page; or (b) subscribe to the [EoP](#) blog, which contains updates on all the EoP Applicants correspondence.

**EoP Supporters:** If you are a signed up Ecology of Peace (EoP) supporter; then you can send an email to the EoP Clerk asking to subscribe to the EoP PRH SQSwans blog. You will be required to “unconditionally recognize the Radical Honoursty culture's right to exist, and its members rights to publicly verbally express themselves in accordance to their honourable problem solving cultural values.” Once you have agreed to those requirements, you will be granted access to reading all EoP related correspondence.

-----  
**Supporter Status Clarification:**

All current and potential EoP-PoW Amendments to Geneva Convention supporters are requested to [clarify](#) their [supporter status](#):

**Unconditional co-operator:** Individuals who has signed the Ecology of Peace Oath (DOC), currently living in accordance to Ecology of Peace social contract principles. **Conditional co-operator:** Individuals who have signed the Ecology of Peace Conditional Co-operator Statement of Intent (DOC). **EoP-PoW Geneva Convention Amendment Return Receipt Supports:** Individuals who have acknowledged receipt of their Legal Invitation to support the implementation of international Ecology of Peace jurisprudence. Co-operators or Return Receipt Supports must submit their Oath, Statements of Intent or Return Receipts to the Clerk before or by 09:01 hrs (MSK) on 11 September 2014.  
Please Note: [Effective voluntary \(i.e. non-violent\) EoP negotiations require un/conditional co-operators to succeed.](#)

-----  
Notice to EoP PoW supporters to clarify their supporter status: the level of their interest in the Ecology of Peace campaign. How serious and sincere are they about their support for the Ecology of Peace campaign?

Considering the plausible reality that [Effective voluntary \(i.e. non-violent\) EoP negotiations require un/conditional co-operators to succeed](#); it is plausible that in the absence of sufficient unconditional or conditional co-operators committed to non-violent advocacy and support of the campaign; the primary EoP applicants (Presidents Obama and Putin, and other GMC 4643 applicants) may consider it necessary to either (a) abandon the campaign; or (b) engage in coercive force for the campaign to succeed.

-----  
**Cheaters:**

Any Co-Operator or Return Receipt supporter who makes direct efforts to obstruct Ecology of Peace (EoP) efforts shall be informed of such Cheater allegations and requested to explain and justify or cease and desist from their obstruction efforts. If unable or refuse to justify, to honourably withdraw their pretend EoP support and apologize. Those who refuse to do so; are removed from the Co-Operator or Return Receipt Supporter list and placed on the Cheater Assassination List.

-----  
Notice to EoP PoW supporters that if they are not sincere about their support; but in fact are pretend supporters and are found to engage in obstruction of the campaign; they shall be required to explain and justify or cease and desist; or face the consequences of their cheater behaviour.

**Objectors:**

Sincere and Constructive criticism welcomed from supporters and objectors. Honourable objectors of the EoP PoW Amendments to Geneva Convention submission may submit a legal brief with your legal argument; to the Clerk by 22 July 2014 (or notify the clerk by 22 July 2014 of the date by when you shall be filing your objection brief).

-----

Notice to EoP PoW supporters and objectors that all sincere and constructive criticism is welcomed. Honourable objectors may submit their objection arguments by 22 July 2014.

-----

**Objectors Motivations:**

Of the approximately 12,875 legal invitations sent; approximately 2,764 (21.46%) indicated their support; while 821 (6.36%) objected; but not one of the objectors filed an official Legal Objection brief.

-----

Notice to EoP PoW supporters of some facts detailed in the referral to the Swiss Federal Commission regarding the number of invitations sent, and how many responses there were: i.e. supporters and objectors. The objectors number was incorrect, and has now been corrected.

-----

**Referral:**

EoP PoW Geneva Convention Amendments referral to Swiss Federal Council shall occur between 10:00-22:00 hrs (EST) on [11 September 2014](#). Most recent DRAFT of Clerk's referral Letter to Swiss Federal Council ([PDF](#)).

-----

Notice to EoP PoW supporters of when the submission shall be made to the Swiss Federal Council; and to provide supporters with the most recent draft of the Clerks referral letter.

-----

As detailed in Clerk's DRAFT referral Letter to Swiss Federal Council ([PDF](#)) [Last Update: 13/06/2014]:

-----

Notice to EoP PoW supporters who did not bother to read the current draft of the referral letter to the Swiss Federal council with important details in the referral letter, they may wish to be aware of (depending on the level of their sincerity and seriousness of support for an Ecology of Peace future):

-----

**Media Silence:**

As you may be aware there has been no mention in the disclosure (Wikileaks, et al), alternative and mainstream media of the EoP POW submission.

-----

Notice to EoP PoW supporters that there has been no mention of the Ecology of Peace campaign in the disclosure, alternative or mainstream media.

-----

### **EoP Supporters Silence Motivations:**

We suspect the silence from supporters is due to their concern that disclosure of the EoP submission to the public would initially generate public interest and discourse, but soon as the discourse shifted to the CommonSism social contracts demand for responsible procreation from ‘non-Europeans’ – ie. Africans, Muslims, Chicano’s, etc – it would inevitably lead to a slugfest of ‘racism’ accusations, particularly from so-called ‘racism / race relations experts’.

Notice to EoP PoW supporters of the Clerk’s interpretations of Supporters public silence about their alleged support for an Ecology of Peace campaign. ### **EoP Objectors Silence Motivations:**

In the absence of the objectors filing objection briefs clarifying their objection arguments, it is not possible to say with certainty what their objection motivations are. We suspect they are any one or a combination of the following:

- **Flat Earthers:** They are ecologically illiterate: ecologically deaf, dumb and blind clueless of impending [Peak Resources MadMax Armageddon](#) reality, and/or its [overpopulation](#) and [overconsumption](#) causes;
- **Fundamentalists:** They are [fundamentally](#) serious about their racial and/or religious -- [RaHoWa](#) / [Kill Whitey](#) / [Eschaton](#) / [Final Solution](#) -- end times prophecies; and perceive Impending Peak Resources Ecological Collapse of the SY Civilization Titanic as a race/class/religious war opportunity for their totally unrestricted blood guts gore orgy of violence to totally eliminate their respective ‘ni\*\*ers / spicks / crackers / joos / [liberal](#)’ enemies from the face of the earth; to establish their respective racial or religious -- White Power / Black Power / Christian / Catholic / Islam -- New World Order.
- **Mi\$ery Para\$ites:** They got their ego's and bank balances stuck in the misery – [selective](#) anti-racism, anti-colonialism, anti-imperialism, anti-zionism, anti-misogyny, anti-war, etc – profiteering till / cookie jar’.

If any objector has any additional objection, not listed above; and you would like your objection noted for the record, please notify the Clerk of your objection, for transparent inclusion into the referral documentation.

Notice to EoP PoW supporters of the Clerk’s interpretations of Objectors public silence about their alleged objection to an Ecology of Peace international law social contract.

-----

### **Race Relations and Anti-War Disclosure Expert Info requested:**

As noted EoP CommonSism principles consider ‘racism’ – like colonialism, imperialism, Zionism, etc – to be simply one of the many tribal resource thieving justifying ideologies resulting from humans failure to recognize that beings which reside in a finite resource environment, must implement a social contract limiting such beings procreation and consumption to ecological carrying capacity limits, to avoid resource warfare. Put simply: Anyone sincerely motivated to abolishing racism, colonialism, imperialism, Zionism, etc; knows that you have to abolish the [War is Peace](#) social contract, cause you ain’t gonna abolish racism, colonialism, imperialism, Zionism, etc; until you implement an [Ecology of Peace](#) social contract. [Ed: Radical Honoursty culture’s definition of racism is borrowed from [Dr Gedalhia Braun](#), and can be found in MILINT Earth Day Amicus submissions to (a) United Nations Working Group

on Arbitrary Detention: [California v USA](#); and (b) Florida Fourth Judicial Court: [Florida v. Michael Dunn](#).]

The information requested ([PDF](#)) from Anti-War Disclosure and Race Relations experts is to provide civil society contextual feedback to President Obama and Putin to determine whether to: (A) engage in a responsible sincere transparent public discussion of EoP POW ecologically literate responsible procreation issues; based upon anti-war disclosure and race relations experts expert belief that Non-Europeans are capable of voluntarily agreeing to the implementation of an international social contract restricting all the worlds citizens to breeding below carrying capacity limits; or (B) simply negotiate and legislate the International Ecology of Peace social contract into law in secret (as [is being done with the TPP](#)); and then present it to the people as a 'fait accompli'; based upon anti-war disclosure and race relations experts expert belief that Non-Europeans are incapable of voluntarily agreeing to the implementation of an international social contract restricting all the worlds citizens to breeding below carrying capacity limits.

Race Relations / Anti-War Disclosure Experts failure to provide a response by 04 July 2014, is to be interpreted as follows:

The Race Relations / Anti-War Disclosure expert:

1. Is a Flat Earther, Fundamentalist or Mi\$ery Para\$ite.
2. Is not willing to publicly confront, expose and advocate on behalf of eliminating the ecological root – overpopulation and overconsumption of carrying capacity limits – resource war causes of 'Racism / White Supremacy / Colonialism / Imperialism / Zionism'.
3. Has no ecologically literate 'racism expert' definition for the term 'racism'.
4. Believes that:
  - a. Non-Europeans (Africans, Muslims, Chicano's etc) are incapable of:
    1. responsible ecologically literate procreation: voluntarily (i.e. nonviolently) restricting their own breeding to below carrying capacity limits.
    2. engaging in a sincere mainstream media public discourse conversation about the general capability of Non-Europeans to engage in responsible ecologically literate procreation.
    3. voluntarily (i.e. nonviolently) agreeing to the implementation of an international social contract restricting all the worlds citizens to breeding below carrying capacity limits.
  - b. Except for this Ecology of Peace social contract campaign; s/he is unaware of any past or current so-called liberation struggle against 'White Supremacy / Colonialism / Imperialism / Zionism'; where the so-called 'freedom fighters' were committed to confronting, advocating, negotiating, and only if militarily necessary by Just War means eliminating the root – overpopulation and overconsumption – causes of 'White Supremacy / Colonialism / Imperialism / Zionism'.
5. Advice to Presidents Obama and Putin is to: "negotiate and legislate the International Ecology of Peace social contract into international law below the mainstream or alternative media radar; and then present it to the worlds people as a 'fait accompli'".

-----

[Notice to EoP PoW supporters of the Clerk's correspondence to Race Relations and Anti-War Disclosure Experts, info requested from such experts and interpretations and conclusions of their responses.](#)

**Conclusion:**

The email (a) notifies supporters of updates to the campaign; and (b) asks supporters to provide the following answer: what is your 'walk your talk' level of sincerity and seriousness of your support commitment for the implementation of an international Ecology of Peace social contract; considering the plausible reality that [Effective voluntary \(i.e. non-violent\) EoP negotiations require un/conditional co-operators to succeed](#); it is plausible that in the absence of sufficient unconditional or conditional co-operators committed to non-violent advocacy and support of the campaign; the primary EoP applicants (Presidents Obama and Putin, and other GMC 4643 applicants or supporters) may consider it necessary to either engage in coercive economic, political or military force for the campaign to succeed; or abandon the campaign.

Respectfully,

Lara Johnstone, Clerk

Mr Macias responded with statements/questions about Mr. Putin and McChrystal's sincerity about sustainability.

I responded asking Mr. Macias for his email address, to address his questions. He has not responded to my request for his email address to answer his questions.

Soon as Mr. Macias finds his Army Reserve courage to provide me with his email address; I shall happily provide him with my answer to his statements/questions; transparently copied to Pres Putin and Mr. McChrystal for their records. Subject: Acting MILED Clerk: RE: WARNINGS : Rothschild and Sawiris plan again to kill Bill Gates

Ms. Guihaume:

BCC: GMC 4643 Lara Johnstone v Brad Blanton Applicants & Observers

RE: WARNINGS: Rothschild and Sawiris plan again to kill Bill Gates

I have twice responded to you asking you questions about your emails. You have ignored my questions. I have asked you to answer my questions or remove me from your email correspondence; or I shall place your email in the blacklist file. You have ignored my requests. I shall be placing your email address onto my blacklist file.

I have repeat signs on my computer over and over. I document them so that they can be analyzed and interpreted, to determine whether any meaning should be attached to them; i.e. whether they are signs from individuals with a sincere clear message; or from individuals who are addicted to plausible deniability Mindfuck mindgames of verbal diarrhea plausible deniable bullshit.

In case you haven't noticed; the majority of the planetary elite are fundamentalist members of Masonic War is Peace cultures; with sweet fuck all interest -- let alone sincere interest -- in any alternative social contract. So they are fundamentalist members of the Masonic War is Peace social contract gang that pretends to oppose assassination, theft, bribery, corruption, rape, gangrape, etc; when in fact assassination, theft, bribery, rape, gangrape, etc are in fact the foundation of their war is peace plausible deniable bullshit social contract.

If -- NOTE I SAID IF -- the signs you received were indeed messages of an impending assassination; and indeed the intended assassination of Bill Gates. Bill Gates, and your, choice -- so far -- is to endorse the Masonic War is

Peace social contract [<http://tygae.weebly.com/war-is-peace.html>], and its Masonic War is Peace communication system:

=====

War is Peace State of Being/Relating Communication Policy

Dishonourable Passive Aggressive Violence Parasitism:

Avoid responding to verbal or written correspondence: by ignoring them, pretending the correspondence was not received; deliberately misinterpreting it, failure to provide honourable reasons for failure to correspond; etc; avoid sincerely and actively listening to the evidence from any individual, particularly from individuals whom you identify as belonging to a particular race, political ideology (left or right wing), religion, race or culture; consciously or unconsciously deliberately avoid actively listening to verify that your interpretation of their statements are accurate; before concluding that you have 'heard their argument';

\* you focus on complicating the issue discussed to deliberately create ambiguity; using as much as possible abstract concepts ; and refuse or avoid defining your meaning of that abstract concept within that circumstance; you avoid addressing their argument or their evidence, or deliberately misrepresent their argument or evidence; generally for conscious or unconscious motives related to their membership of some political ideological group, race, religion or culture;

\* if you are convinced by their evidence on any particular issue; you avoid admitting such; and you also refuse to agree to disagree on that particular issue, and remain in the conversation until you find agreement (if ever); and support each other on other issues that you do agree upon.

\* you create conflict in the discussion; avoid addressing their argument or evidence; when such conflict arises; you use it as an excuse to withdraw from the conversation; and avoid exploring opportunities to allow yourselves to get over your anger (as opposed to requiring yourself or others to suppress their anger for political correct 'lets pretend we are getting along' reasons); and remain in the conversation;

\* fundamentalist: if their evidence proves any of your evidence for any of your ideological or other working hypothesis theories or beliefs to be inaccurate; you love your ego-(political/racial/cultural)-identity more than reason and logic, and refuse to change your mind, on that particular subject and amend your ideological working hypothesis or belief with the new evidence provided.

=====

I am a member of an Ecology of Peace culture, who abides to an Ecology of Peace social contract [<http://tygae.weebly.com/ecology-of-peace.html>]; our communication policy is as follows:

=====

Honourable Reason and Logic Problem Solving:

\* always respond to verbal and written correspondence: from honourable communicators, with a sincere honest response; from communicators interpreted as dishonourable, with a sincere honest interpretation of the dishonourable elements of their communication, and if continued, with notice of the termination of correspondence, until they commit to honourable discourse; if committed to honourable discourse;

\* by sincerely and actively listen to the evidence from any individual, irrespective of their political ideology (right wing to left wing), religion, race or culture; actively listening means you verify that your interpretation

of their statements is accurate; before concluding that you have 'heard their argument';

\* you focus on simplifying the issue discussed, using as much as possible descriptive words (as opposed to abstract concepts; and where you do use abstract concepts; you are willing to define your meaning of that abstract concept within that circumstance)

\* you evaluate their argument based upon the evidence they present, not their race, religion or political ideology; etc;

\* if you are not convinced by their evidence on any particular issue; you are willing to agree to disagree on that particular issue, and remain in the conversation until you find agreement (if ever); and support each other on other issues that you do agree upon.

\* if conflict arises in the discussion about the issue, you are committed to remaining in the conversation and finding a way to resolve the conflict, by allowing yourselves to get over your anger (as opposed to requiring yourself or others to suppress their anger for political correct 'lets pretend we are getting along' reasons) [For a civilian therapeutic process conflict resolution practice that requires great deal of philosophical courage (going way outside comfort zones), but works see Radical Honesty Resentments / Appreciation.

\* if their evidence proves any of your evidence for any of your ideological or other working hypothesis theories or beliefs to be inaccurate; you love reason and logic more than your ego-identity and hence you are willing to publicly change your mind, on that particular subject and amend your ideological working hypothesis or belief with the new evidence provided.  
=====

In accordance to that policy; if or when I consider it necessary for anyone to be assassinated; I provide them with legal notification of my evidentiary reasons, and provide them with the opportunity to transparently object in a court of law [[http://tygae.weebly.com/uploads/1/3/8/7/13878165/14-11-04\\_icc\\_nobelcomm-etal\\_draft.pdf](http://tygae.weebly.com/uploads/1/3/8/7/13878165/14-11-04_icc_nobelcomm-etal_draft.pdf)].

So its really none of my business if or when individuals who insist on endorsing a Masonic War is Peace -- dishonourably thieving, assassination, rape, gangrape, backstabbing two faced hypocrite plausible deniability on steroids etc -- social contract; experience the dishonourable words/bullets communication system consequences of the social contract they choose to endorse and live in accordance to.

Subject: WARNINGS : Rothschild and Sawiris plan again to kill Bill Gates

Hi,

I have again the signs I had on my computer October 22, the day after the death of Christophe de Margerie. Wednesday is Microsoft shareholders meeting. Please spread to prevent an assassination from occurring.

Best regards,

Nicole

Nicole,

I have asked you before. You did not bother to provide me with any answer; cause you have fuck all honour and honesty and integrity.

I ask again, the last time.

In one short paragraph, in simple fucking language, tell me what the fuck your correspondence is about.

If you do not provide me with an answer to my question; I shall add your email address to blacklist.

Lara

Subject: Complaints against the ICC and the ECHR

Hi,

While we are all concerned by Law, it happens to be perverted in a  
terrific way, as this video exposes it:  
[http://www.dailymotion.com/video/xh8ipw\\_ivoirebusiness-tv\\_news](http://www.dailymotion.com/video/xh8ipw_ivoirebusiness-tv_news)  
if we think that the one who faces the ICC is Laurent Gbagbo. I feel  
concerned by this  
abuse for I faced a justice denial behind the ECHR which refused to  
examine a request I filed as I face a severe harassment for 16 years  
which was finally recognized by Microsoft. I join you the complaints I  
filed against the ECHR and the ICC. I join you a PDF registered on the  
wayback machine of the website interwatch.org.

My complaints, and the reason why I file them are on line:

<http://www.911-a-rothschild-coup-using-microsoft.info/>

I wish we shall react.

Best regards,

Nicole Guihaume

**Who was the originator of the CIA message?**

- National Security Agency / KGB/FSB [Psychotronic black box](#) agents; and/or.
- Some IT individual at the CIA, with or without Mr. Brennan's direct authorization.

**Who is the target of the CIA's message?**

- Lara Johnstone
- Individuals to whom I may share the message in my capacity as [Acting MILED Clerk](#).

***Message Target: Lara Johnstone: No:***

For numerous In Your Face reasons obvious to any ecologically and egologically literate idiot with two inches of a spine: I seriously doubt I am the target of the message.

I don't play Mindfuck games. I tell you what the fuck I think, and don't fucking varnish that truth; and will provide my evidence for whatever I think. I ask for what I want, if I can get it great; if not I go without. If I think I am legally entitled to it, I approach a court to inform the court of my opinions on the particular issue. When I am involved in legal proceedings, I practice buck stops here communication practices. I would rather go without what I want, than engage in passive aggressive manipulative plausible deniable mindfuck games deception to get what I want.

I am one of very few people on this fucked up planet, who appreciates simple clear communication. I have no problems with certainty. There is more than enough uncertainty and ambiguity about what is clearly unknown. I know myself, I know what I want, what I like, don't like; and I prefer to let anyone whom I communicate with know in certain terms what I mean, what I agree to and disagree to, etc.

You can say whatever you think to me, to my face, no matter how offensive; upto and including that you think I should be assassinated; and I shall listen to you; and examine your evidence;

and if you are correct; either remove myself from the planet or provide you with the legal authorization to remove me.

Anyone who appreciates that reality; will not abuse it. You will respect it, and appreciate it; and reciprocate it. The more you reciprocate, the greater your credibility rises that you mean what you say and say what the fuck you mean. When you speak I listen, when I speak you listen. We don't fuck each other around with mindfuck games.

The less you reciprocate it, the more you indicate you have fuck all sincere interest in clear simple communication; have fuck all clue what the fuck you are saying, and if or when you may have a fucking clue what you are saying, you don't mean it. Listening to you is nothing more than a fucking waste of time.

I have observed and documented my observations and [interpretations](#) of the Mindfuck games played by members of the [military](#), [political](#) and [legal and corporate Masonic War is Peace](#) elite.

The CIA, NSA, KGB are crystal fucking clear about what I want; so have no need to engage in some [plausible deniable In Your Face: What Do You Want](#), means to ask me what I want.

I want to be with Tim, living off grid, on our little piece of land alone or around others similarly motivated; living simply and until we depart from this fucked up planet. I am fucking tired of being around people whose only fucking purpose in life appears to be to engage in plausible deniable mindfuck mindgames and breeding/consumption war behaviour.

Consequently:

\* If or when the message is a Mindfuck message; from an individual who sincerely respects the fact that I have fuck all interest in Mindfuck games; who is quite capable of expressing themselves to me in crystal clear unambiguous 'buck stops here' terms; I am not the target of the message.

\* If or when any message is unequivocal 'fuck plausible deniability buck stops here' message, addressed to me, for my attention, I am happy to consider myself the target of the message; and to give it my 100% *Important is First or it Isn't* attention.

Based upon the aforementioned principles: It is quite obvious to any ecologically and egologically literate idiot with two inches of a cognitive rational enquiry spine: I seriously doubt I am the target of the message.

***Message Target: Individuals to whom I may share the message in my capacity as Acting MILED Clerk: Possible:***

If or when the message is a Mindfuck message; and/or from or to, an individual/s who prefers to engage in Mindfuck games; and/or who has fuck all interest in expressing themselves to others in crystal clear unambiguous 'buck stops here' terms; then clearly they demand to be communicated to in terms of Mindfuck messages; and hence are the target of others Mindfuck messages.

Let me know when you are interested in a 'buck stops here' conversation. Till then: Enjoy your Masonic War is Peace Mindfuck games ladies and gentlemen.

***Buck Stops Here Terms:***

The following story is a good description of what I refer to as ‘buck stops here’ terms. It was told to me by my friend and at the time lover Gunny Dye; 17 year former US Marine Gunnery Sgt. Jon Michael Dye. He may have embellished it a bit, but I don’t imagine too much; cause he was not afraid to say what he thought, when he thought it.

He was in the Congo when he got a message that his ex-wife had been severely beaten up by her new boyfriend: broken ribs, that kind of thing. He got time off, and flew back to California. He found the boyfriend, and beat him to a pulp; broke ribs, bones, put the man into intensive care, and very close to death. The man filed assault charges. Gunny went to court. This is what he told the Judge.

‘Your honour. I plead not guilty; although I do admit to having beat the shit out of that piece of scum, and put him in hospital. He beat up my wife, and I taught him a lesson about what happens to any man who – without any reasonable justification – assaults a woman; in this case, my former wife; the mother of my children. To save the plaintiff, prosecutor and courts time: let me make it very clear. If he ever lays his hands on my former wife, again, the next time I will not be beating him up, but will put a bullet through his brain. If the plaintiff, prosecutor or court has any objections to that statement of intent, which is not a threat, but a Semper Fidelis promise; then you better find me guilty right now of first degree murder; and to save the State of California’s time; schedule the execution date; and a few of my Marine Corp buddies can line me and the piece of scum plaintiff up against a wall and riddle us with bullets; and you won’t have to bother the courts time with either of us ever again.

The Judge asked the plaintiff and prosecutor if they had heard the statement of the accused, and whether they fully understood the intentions of the accused, should his wife ever be beaten up again by the plaintiff; and whether they had any objections to the accused’s promise of death consequences to the plaintiff for beating up his wife. Neither the plaintiff nor the prosecutor informed the judge of any objections.

Gunny was found not guilty of assaulting the plaintiff.

Now that is a judge who is capable of managing a ‘buck stops here’ courtroom, who when confronted with a ‘don’t fuck with me or my wife buck stops here’ accused in his courtroom; was capable of demanding that the prosecutor and plaintiff understand that they were dealing with a ‘don’t fuck with me or my wife buck stops here’ accused; and not some ‘plausible deniable backstabbing two faced hypocrite mindfuck’ accused; and save the court and police’s time, by engaging in a problem solving fully informed consent 100%-certainty-agreement between the accused and plaintiff.

### ***Buck stops here or plausible deniable mindfuck message?:***

There are more than a few possible interpretations; hence appears to be a plausible deniable mindfuck message.

### ***EoP and/or WiP antagonists: CIA – Bill Gates:***

Does the message from the CIA, indicate the CIA’s confirmation of their intention to assassinate Bill Gates?

Maybe, maybe not. I don’t know.

If so: the CIA’s assassination intentions could be founded on EoP or WiP social contract motivations.

### ***Bill Gates WiP status:***

According to my knowledge of Mr. Bill Gates:

- He is a billionaire resource thief rapist of planet and planets resources for his fragile fucking ego.
- He has given sweet fuck all charity towards root causes of population breeding war problems.
- He has given sweet fuck all charity towards root causes of consumption war problems.
- He has given sweet fuck all charity towards encouraging academic, corporate, activist, citizen inter-cultural brutal honest problem solving.

I am unaware of any information that Mr. Bill Gates has even 1% of support for EoP social contract principles; and even if he has such theoretical principle support; I am unaware of 0.000005 % evidence indicating any actions in the real world, that he gives a fuck about doing anything about his 1% of EoP social contract principles.

I could be wrong; but until provided with information to the contrary; all evidence indicates Mr. Bill Gates is 100% supporter of the Masonic War is Peace social contract.

### ***CIA status: EoP or WiP:***

If EoP: its possible the CIA are informing the legal/judicial/prosecutorial/police system, and EoP PoW complaint to the International Criminal Court respondents of their support for the complaint. If they do intend to assassinate him, all they need to do is wait for the ICC complaint to be filed; and the EoP 'crimes of aggression acts of war' charges to be finalized; and then they can transparently and honourably inform Mr. Gates of their opinions.

If WiP intentions then it's a resource war battle between intelligence agent vs corporate resource thieves; and if Mr. Gates believes any other WiP intelligence agency or corporate resource thief gangsters intend to assassinate him, and object to their intentions; he should notify relevant Masonic War is Peace social contract authorities.

### ***Conclusion:***

A CIA Masonic mindfuck mindgames message; to an individual/s who prefers to engage in Mindfuck games; and/or who has fuck all interest in expressing themselves to others in crystal clear unambiguous 'fuck stops here' terms; whose social contract communication policy demand is to be communicated to in terms of plausible deniable Mindfuck messages; and hence who is the target of the CIA's Mindfuck message.

Let the CIA / NSA / KGB know when you welcome them to engage you in an unequivocal 'fuck plausible deniability fuck stops here' conversation; or continue demanding among others, the CIA / NSA / KGB to communicate to you in terms of Mindfuck messages; and hence be the target of their plausible deniable Mindfuck messages.

Let me know when you are interested in giving me what I want or a 'fuck plausible deniability fuck stops here' conversation to accomplish what we both may want. Till then: Enjoy your Masonic War is Peace Mindfuck games ladies and gentlemen.

If the Democratic Alliance sincerely care about abolishing ‘racism, sexism, nationalism, socialism, capitalism, nazism, islamism, zionism, corporatism, stalinism, human sacrifice culling’ you need to educate not only your Democratic Alliance supporters but everyone you come into contact with; about the importance of abolishing the [Masonic War is Peace](http://tygae.weebly.com/war-is-peace.html)<sup>8</sup> social contract; and implementing national and international [Ecology of Peace](http://tygae.weebly.com/ecology-of-peace.html)<sup>9</sup> social contract, that restrict all the worlds citizens procreation and consumption to ecological carrying capacity limits.

Instead it appears the Democratic Alliance leadership would prefer to lead the Democratic Alliance party and Western Cape citizens into a Masonic race war in the Western Cape.

You are either an Ecology of Peace social contract principle supporter or you are a Masonic War is Peace social contract supporter. You cannot be both. The evidence indicates overwhelmingly that you are a Masonic War is Peace social contract supporter. I am unaware – except for your ‘EoP’ read receipt; which appears to have been nothing more than bullshit the public written

### **MUNOSCO: 10 Sep Panorama press report**

I received your MUNOSCO press report; and I read/browsed your links.

Most of the MUNOSCO articles are in French; which I am not conversant in.

Your bio says you are a Congolese Freelance Investigative Journalist, human rights defender and politician. 99.9% of politicians, journalists and so-called 'human rights defenders' are conscious or unconscious two faced liar War is Peace parasites. It appears that the articles are simply reports about what Frantz Fanon would refer to as 'niggers killing niggers on a Saturday night'.

There are more than enough reports about 'crackers killing crackers on a Tuesday night'; 'coolies killing coolies on a Friday night'; 'pakis killing pakis on a Monday night'; and so on. If that is what their colonized minds insist they do in order to kill the fragile ego settler slave master in their psyche; projected onto each other; cause they ain't got the courage to give a fuck about sincere problem solving, the root causes of their resource war and fragile ego psychological issues; then that's their choice. There are more than enough arms manufacturers who are only too happy to provide colonized mind niggers / crackers / coolies / pakis -- who refuse to resolve ecological overshoot resource war violence by addressing and eliminating the root Masonic War is Peace 'right to breed / consume' social contract causes thereof – with endless array of phallic armaments to kill each other.

I prefer to spend my time focused on problem solving; with other people who are sincere about problem solving; by determining the most honourable way to implement an [Ecology of Peace](#) international law social contract; that eliminates the current 'right to breed/consume' [Masonic War is Peace](#) social contract.

Until so-called journalists and human rights defenders start focusing on root cause problem solving; instead of their parasite bullshit the public blame game bandaids to braintumours reporting; they will make fuck all progress towards so-called 'press freedom' and freedom of expression.

If your journalism does not address the Ecology of Peace facts about local, national and international – cultural, religious, racial, ethnic – resource war conflict; then you can continue to bullshit yourself until you turn pink with green stripes about how you are a so-called 'human rights defender' or promoting 'press freedom' or freedom of expression; and you and your United Nations buddies are massively bullshitting yourself. But if that is what you want to do; and it makes your fragile ego's feel better; by all means go ahead. I have better things to do with my time; than waste my time reading parasite journalists or priests or human rights activists mental masturbation Mindfuck bullshit the public relations.

If however you are sincerely interested in 'peace' -- i.e. addressing the root overpopulation/consumption causes of resource war conflict-- problem solving and I can help you; I'll be most happy to do so, if I have the required time and resources.

If you are sincerely interested in problem solving: What do you want from me?
